Officer Block as a Lawyer.

Officer Block was the defendant in the Police Court this morning on a charge brought by Special Officer Wheelock that he had failed to keep lights as required by law on some building material on Fourth street southeast. Mr. Block had made all the arrangements to have the lightsproperly placed, but Officer Wheelock testified that there was only one light when there should have been two. Mr. Block appeared as his own lawyer, and conducted his case like a veteran at the bar. "Your Honor," he said, "I think that I will be able to convince you that this information is defective. It charges that I failed to keep a light on the obstruction. The officer admits that I had one light there, but complains that I have yloisted the law in not having two." Judge Miller sustained the demurrer and demissed the case. Officer Block as a Lawyer town held its regular monthly moeting at Association Hall last night and dis-cussed a number of important matter-Mr. John Leitch spoke of the bad sani-tary condition of Water street show the freshet had subsided, and a motion was adopted calling the attention of the Health Office to the nuisance. Health Office to the nuisance.

Chairman Greenless made an address on the subject of the proposed raitway along the bed of the canal. He was followed by Mr. Leitch, who said that already considerable information had been furnished the Pennsylvania Railroad officials and everything done to impress upon them the necessity of a branch road from the Free Bridge to Four Mile Run.

Mr. R. B. Tenny thought that some action should be taken regarding the restoration of the Georgetown level, and said that not only the interests of the

Mitchell said that it was impossible to do anything until after the meeting of the directors next week, and a committee of four were appointed to represent the interests of the city. A committee was also appointed to call upon the officials of the Pennsylvania Railroad and ascertain if they were considering the feasability of building a road along the canal.

The destitution among the boatmen along the line of the canal is becoming greater every day, and immediate steps are necessary to prevent terrible suffering. It is estimated by people familiar with the country traversed by the water way that there are at least 100 families between Georgetown and Chain Bridge for whom something must be done at

between Georgetown and Chain Bridge for whom something must be done at once. These people are poorly paid even in the busy season, and none of them have any moneysaved. The only homes they know are the canal-boats, and these now lie imbedded in the black slimy mud, from which an ef-

fluvia is rising which threatens to start graveyards in more than one place. The majority of the boatmen had every-thing they possessed invested in their boats, and these are almost an entire

THE CANAL'S FUTURE.

One of Two Things Must be Done With It.

The circular of Messrs. John A. Hambleton & Co., the Baltimore bankers, issued yesterday, thus reviews the destruction of the Chesapeake and Ohio Canal, as a waterway, by the flood. There is only one of two things that can be done with the Chesapeake and Ohio Canal. Either the State of Maryland must assume its liabilities and make it a free waterway, as did the State of New York, or the canal must be sold for the purpose of constructing a railroad upon its corpus. It is not likely that the State will assume the liabilities of the canal and make it a free waterway, so that it is more than probable that the

The Baltimore and Ohio Railroad would no doubt like to get possession of the canal and use it to shorten its route or to prevent any connecting road.

The Legislature will be in session next winter, and no doubt some disposition will be made of the canal and the \$500,000 repair bonds be provided for by payment, or some satisfactory guarantee from any purchaser or lessee of the canal. If the canal is sold outright it would bring enough to cover the \$500,000 repair bonds, and, probably, in addition enough to pay something to the holders of the \$1,000,000 old nonmortgage bonds and a dividend to the State. The canal ought to bring at least \$1,000,000.

Catarrh

S a blood disease. Until the poison is expelled from the system, there can be no cure for this louthsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla — the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physi-cians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and com-pletely restored my health."—Jesse M. Boggs, Holman's Mills, N. C.

Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Haying tried so many remedies, with little benefit, I had no faith that anything would cure me. I become emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dezen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."
